Borrowed TI-84: 15-minute orientation

For common TI-84 Plus and TI-84 Plus CE borrower workflows. Model details can differ.

Task	Key sequence or check
Clear current line	**CLEAR**
Negative number	Use **(-)**, not subtraction
Angle mode	**MODE** → confirm Degree or Radian
Enter a function	**Y=** → enter function → **GRAPH**
Standard window	**ZOOM** → **6:ZStandard**
Inspect points	**TRACE** → arrow keys

Quick graphing practice

Press **Y=**, enter **x²**, press **GRAPH**, then use **TRACE**. If the graph is missing, try **ZOOM → 6:ZStandard**.

During the loan

- ☐ **Use course help**
  Open graphing, statistics, regression, matrix and trigonometry guides.
- ☐ **Practise in the browser**
  Rehearse supported steps before repeating them on the physical device.
- ☐ **Stop before a reset**
  Ask lending staff if old programs, lists or settings are unfamiliar.
