Calc for Class
Teacher printable · Revised July 2026

# TI-84 Graphing Quick Guide

A concise classroom reference. Scan the QR code for the maintained online guide and interactive calculator.

| | |
|---|---|
| **Enter a graph** | • Press Y=.<br>• Enter the expression in Y1 using X,T,θ,n for x.<br>• Press GRAPH. |
| **Standard window** | • ZOOM → 6:ZStandard gives a useful -10 to 10 starting view.<br>• Use WINDOW when the graph is outside the visible range. |
| **Inspect a graph** | • TRACE moves along the curve.<br>• 2nd → TRACE opens CALC tools such as zero, minimum, maximum and intersect. |
| **Fast troubleshooting** | • Blank graph: make sure the = beside Y1 is highlighted.<br>• Unexpected shape: check Degree/Radian mode.<br>• Flat graph: narrow the y-range. |
